 Girls
STATE

1 with one another, and live to their fullest potential. These men and women serve not only
2 their communities, but also their great State of New Mexico as an overall. The State of New
3 Mexico greatly benefits from these hard working educators, who ensure to bring the best
4 out in every citizen. Without these amazing professionals being there to help others
5 improve their quality of speech, our state would lack in the area of communicating with
6 others. Educators of all kinds get a special day to honor them, but Speech Language
7 Pathologists deserve to have a day to honor them and appreciate them as individual
8 speech educators. New Mexico is second in the nation for the need in speech language
9 pathology. SLP's play a vital role to provide the citizens of New Mexico the richest and
10 most valuable thing they could achieve in their life time, communication. The State of New
11 Mexico would suffer without SLP's as a whole because New Mexicans would not be able to
12 properly communicate with each other and accomplish tasks in everyday life, with
13 something as simple as going to the grocery store or something as tough as talking to
14 peers at school. Speech educators deserve a day to recognize the amazing individuals that
15 they are.
