

AMERICAN LEGION AUXILIARY

 Girls
STATE

1 SECTION 2. PROVISIONS. - Fracking is a process of injecting high pressured liquid into
2 subterranean rocks, spore holes and other natural petrology. Fracking has become a huge
3 problem within the State of New Mexico. It causes water contamination pumping into shack
4 rock during the Fracking process which contains caranogenic chemicals. If that chemical
5 gets loose it can pollute local water supplies near the Fracking site, causing threat to
6 people, natural resources, fish and other wild life. It also increases the potential for soil
7 spills which harms the soil and surrounding vegetation. Fracking can believe it or not can
8 cause earthquakes due to high pressure used to extract oil and gas from rock storage.
9 Workers who work in Isleta and Chaco Coalition, etc. can be a very dangerous job. It puts
10 the workers in risk to inhale particles of silica sand and that can show a very unsafe
11 environment in the reservations to people who are interesting into visiting these
12 extravagant New Mexico reservations.

13 I strong willingly believe that Fracking should be banned on the reservations within the
14 State of New Mexico because it does destroy a naturally beautiful landscape for people to
15 enjoy. If we were to stick with natural resources within the reservations New Mexico could
16 be a better climates place and we would have less problems with the wildlife and people.
17 Protecting these reservations from this harrmful process could save an extraordinary view
18 for the New Mexican generations to come.

19 SECTION 3. PENALTY. -

20 SECTION 4. APPROPRIATION. -

21 All laws, acts, provisions, or parts of laws contained in the Constitution of the State of New
22 Mexico in conflict with any provision of this act are herby repealed.

23
24 This act shall become effective 90 days after it's passage and approval by the American

1 Legion Auxiliary New Mexico Girls State Governor or it's otherwise becoming a law.
